

# X-ray Inspection System

## X 光异物检测机

- Base on AI intelligent foreign object software recognition , with excellent software learning function and detection accuracy.
- It's capable in detection of foreign objects such as metal, glass, stone, bone, high density rubber and plastic.

- 基于AI智能异物软件识别算法；具备优秀的软件自学习功能和检测精度。
- 可检测金属、玻璃、石头、骨头、高密度橡胶和塑料等异物。
